The DRep Collective
Meeting #4

Today's Agenda

| Meta Data | Ecosystem Mapping | Feedback | Social Activity | Plomin Hard Fork |

Workstreams: Who is who in the DRep collective (Profiles Doc)
- What to be involved in yes, what to be updated on.
- Project Management
- Find an Influencer? Someone well connected?

Meta Data: Where are we at?

## **February 1st Due Date!**

https://drep-eco.vercel.app/cip148

Outreach group on Telegram / Mad Orkestra
Workstreams
Share Bundled Research w/Alpine

1. Working doc, channel strat & content
2. Working doc, workstreams written out

Ask Matt for Templates

Ecosystem Mapping

https://drep-eco.vercel.app/map

Feedback: Experience:
Currently, the Map, as viewed from within the Vanadium browser (default on GrapheneOS) on a Pixel 7 Pro is outside of the screen's dimensions in portrait mode. All other relevant pages appear 100% viewable.

Proof Of Concept:
Looks promising. Possibly consider mobile-first in all aspects the design (and low data overhead) to promote usage among current/future members whose countries have high wireless data tariffs, limited computer viability and/or ISP infrastructure.

Feedback

How lightweight should the website be?

Would this require removing all unnecessary graphics?

What wallet integrations, if any, will be considered?

What browser dependencies will be required?

GDPR, and other like-policies, compliant? Privacy? TOS?

App/website maintenance costs, difficulties?

Translations and Maintenance? Hosting?

Where is it hosted?

Social Activity

Twitter

- https://x.com/messages/1882815138123722874
- Onboarding Campaign?

DRep Forum

- https://forum.cardano.org/t/meeting-notes-drep-forum-drep-collective/142112/5
- Cryptpad/Notion

Discord

- Server Roles
- Code of Conduct
- Mission Statement (See next slide)
- Discussions?

Linktree

- Discuss video repo. - YouTube
- Github

Mission Statement Development

Mission Statement

- Increase delegation to more dReps.
- Build a decentralized distribution channel for governance.
- Address voter apathy and activate more ADA in governance

Development of a DREP ecosystem map.	Refining metadata standards.	Structuring sustainable governance initiatives.
Airdrop (Within Intersect)	Soulbound NFT & Voting Platform.	Code of Ethics?

Make a mission statement this week. How do we remove centralized blockers and how do we facilitate people making decisions non-linearly. How does this create an advantage for Cardano? How does it make the ecosystem faster? How do we make the pie bigger for everyone? (Business Model). Help the community ecosystem understand itself. How to help scale.

How should we prepare for the Plomin Hard Fork?
